

Horsey House  
212 Brookletts Avenue  
Easton, Maryland 21601

T-449  
C1890

Basically, a T-shaped frame building covered with a straight forward gable roof, the Horsey House has a three-and-a-half story corner tower with a flared, shingle covered hipped roof. Ornamental gable dormers protrude from the roof and finials top the buildings gable ends. Relatively conservative for the late nineteenth century, the dwelling contributes to the large array of Victorian architecture in the town.

**DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE**

This Victorian frame house stands at Brookletts and Aurora. The two-and-a-half story building is constructed in a T-shaped plan with the crossbar perpendicular to Brookletts. A three-and-a-half story tower which contains the main entrance and the interior stair stands at the northeast corner of the house. A one-story porch shades the north and east facades of the structure, and a half-hexagonal bay window in the north gable relieves the rectangularity of the structure.

The T-shaped portion of the house is covered with a gable roof. In the east and north gables is an infill decoration of crossed sticks and curved brackets, topped by a tall, pointed wooden finial. The square tower has a hipped roof; its deep, flared lower slopes are pierced by narrow gable dormers with widely overhanging eaves and lancet arch shaped window openings. The tower roof retains its original imbricated wooden shingles. Small scroll-type brackets support the eaves.

The porch is the most irregular feature of this straight-forward house. Following the contours of the plan, entrances (at the tower and in the east gable) are marked by a shallow pedimented gables. Square wooden columns which taper towards the top support the hipped roof and a simple railing with square, closely spaced balusters, encloses the whole.

Windows are used singly throughout the house. Each has a one over one sash and flat unmolded frames. They are placed regularly, centered in gables and the sides of the tower and along the sides of the blocks.

A two-story rear porch is decorated with similiar crossed-stick brackets as found in the gables.

The building is covered with gold-painted asbestous shingles. Trim is white and the tower roof brown. Green asbestous shingles are used on major roofs.

The structure stands in a neighborhood of large frame buildings of the late nineteenth and twentieth centuries. It is well cared for and used as a single family residence.

BUILDER/ARCHITECT

## STATEMENT OF SIGNIFICANCE

This large house appears to be a vernacular interpretation of the so-called Stick Style of the 1860's to 1890's. Basically a T-shaped building covered with a straight-forward gable roof, its tower and wooden brackets and finials reflect late nineteenth century fascination with verticality, picturesque roof lines and decorative elements, ultimately derived from structural ideas. Like many vernacular buildings of this period, the builder was conservative in the selection of the decorative elements; nevertheless, this building, a good representation of its period, contributes to Easton's array of nineteenth century architecture.

L177/F98 Robert Woodward and his wife Cynthia bought this property  
 70/F104 in 1973. It was owned in 1946 by J. Orland Horsey and other  
 L271/F96 heirs of Elmer E. Horsey. It was sold to John C. North and  
 L279/F1 Mary who sold it to the Charles E. Greenhaws, but were forced  
 to take it back on a defaulted mortgage. They turned it over  
 L279/F52 to Willard and Wilsie North in 1948 who owned it until 1962.  
 During the next eleven years, there were several owners who  
 apparently bought it as an investment.

L171/F125 Elmer Horsey took title to the house and lots from John  
 L127/F173 Horsey in 1915. John Horsey bought the property in 1897  
 from the John Masons and the Walter Thompsons. He paid \$1500.00  
 for Lots 48 (60 feet facing on Brookletts Ave.) and 49 (78 feet  
 2 inches and running 130 feet on the west side of Aurora St.).  
 Harriett W. Glanville had bought the lots, a part of Earle's  
 L100/F34 sub-division, in 1884 from John and Clara Earle. She sold  
 it, with the buildings, to Messers Mason and Thompson in 1895  
 for \$1000.00.
